7. PRESENTATION

1. INTRODUCTION

- Human history is important to humans
- Confusion among humans about the history and facts that surrounds it often leads to conflict and sometimes wars!
- If they know too much, they'll have an easier time to get along. We don't like that!
- Young humans are very impressionable, this makes them the perfect target!

2. WHY WE SHOULD USE HISTORY DENIAL

We will make money if the humnas, by:

+ Making war, where we can earn money on weapons

+ Making groups not understanding other groups history so that they misstreat each other. We can sell medicin.

+ The more misinformed the humans are, the more they will spread it themselves. We don't need to work!

Internet have made it harder and easier to trick humans! They used to believe anything, but now they can google!

3. GOAL & TARGETS

Young humans attend 'school' to learn what old humans believe is essential for their future as grown-ups.

Making the learning material they use as inaccurate as possible!

+ Change the history of a special group

+ Make one person seem more important

+ Make groups that hurt others, seem like they did a good thing

4. MOTIVATION

The most active and involved trolls contributing with the best ideas will get:

⭐ a promotion!

⭐ an employee of the month title (and a party to celebrate it)!

⭐ a salary bonus!

⭐ a dinner with the boss (hihihihi)!

Which one of these caught your attention?

Don't forget that **everyone** should work hard!

Humans are becoming more tolerant and they actually understand history!

These are bad news for the troll's community.

We must fight back – NOW!
